Qatar condemns Israeli bombing of Indonesian Hospital

Qatar condemned on Wednesday a televised bombing of an Indonesian Hospital in the northern Gaza Strip, which resulted in the starvation and injury of several patients, following an extension of the occupation’s approaches in targeting hospitals, schools and population centers, and the ongoing violation of international laws and agreements, especially the Fourth Geneva Convention.

In a statement yesterday, the Ministry of Foreign Affairs condemned the ongoing attacks on Palestinian civilians, in which hospitals and medical centers were targeted in the Gaza Strip, urging the international community to take urgent action to deter Israeli forces and provide necessary protection to the civilians against the assault on their daily lives.

The ministry expressed to Indonesia’s embassy in all the political and legal steps it takes to deal with this brutal crime.

**'Israeli atrocities in Gaza an insult to humanity’**

Permanent Observer of the State of Qatar to the United Nations, Ambassador Mohammed Al-Emadi, described Israeli attacks on the hospitals and the intersection and targeting of journalists in the Gaza Strip as constituting an act to impede the right to freedom of expression under any pretext.

He said in a message sent to the UN Secretary-General, António Guterres, that the attacks on the people of the Gaza Strip were conducted in violation of the Charter of the United Nations (UN), and the principles of the Geneva Conventions.

Al-Emadi said the Israeli authorities have conducted attacks on hospitals as a deliberate targeting of civilians and hospitals, violating the principles of the Fourth Geneva Convention.

**Pleas for safety:**

The minister also highlighted the plea for safety of the people living under occupation, and called on the UN as well as on all members of the General Assembly, Security Council and humanitarian teams.

He pointed out that the statements indicate the mortification of 12,200 Palestinians, including 3,250 women and 5,000 children, with 26,000 injured.

He said that the hospitals and medical centers remain under the rubble.

**800 displaced people:**

The ministry also expressed its solidarity to the people of Indonesia who have been displaced by the Israeli settlement policies on their occupied lands, and called on all concerned bodies and international humanitarian organizations to provide the necessary assistance to them.

Al-Emadi stressed that the occupied Palestinian land is an inalienable right, and the attacks on the people of Indonesia are in direct violation of international law.

**Palliative care program:**

The ministry also highlighted that the Palestinian Medical Care Team in Indonesia has launched a program for palliative care for premature babies, who were evacuated from Gaza City.

**Operation of four new incubators:**

“All babies have received the medical care necessary to overcome the crisis, and they are in the process of being transferred to hospitals in the area,” he said.

Al-Emadi reiterated Qatar’s call for the international community to take decisive action to stop the Israel’s assault on the hospitals and medical centers in the Gaza Strip.

**“Israel should be held accountable”**

He added that the international community should hold the Israeli authorities accountable for their ongoing violations of the international law, and take all necessary steps to protect the civilians and prevent further attacks.

**Qatar Travel Mart 2023 begins with participation from over 60 countries**

The opening ceremony was attended by a host of dignitaries, including Qatari Ministers of Tourism and Sports, Foreign Affairs, Sheikh Mohamed bin Hamad Al-Thani, the Emir of Qatar, the president of the UN General Assembly, and the Secretary-General of the Organization of Islamic Cooperation.

HE the Chairman of the Local Organizing Committee, Sheikh Hamad bin Mohammed Al-Thani, said: “Qatar continues to offer unparalleled opportunity for businesses to enhance their know-how, engage in valuable discussions, and experience the best of Qatar, which is receiving a lot of attention and interest from the international tourism sector.”

The ceremony was followed by a presentation of the theme of Qatar’s tourism progress and development, as well as the launch of the Asian Cup Qatar 2023 to be hosted by Qatar.

**Proceeds from Asian Cup Qatar ticket sales go to Palestinians**

Proceeds from ticket sales to the AFC Asian Cup Qatar will be donated to the Palestinian children who are facing critical issues regarding various forms of resource management. Hosting the AFC Asian Cup Qatar 2023 will be followed by a 50% expansion in scale. From a 50% expansion to a completely new model, Qatar will become the first country to host the Asian Cup in its full capacity, with 21 matches taking place across stadiums in Doha, from Jan 21 to Feb 10, 2023.

**Qatar Travel Mart (QTM), featuring over 50 exhibitors and offering exclusive programmes to a coming of over 100 travel buyers,ufen 25, 2023, 01:00 AM

Amir meets Saudi Prince Turki

The Local Organizing Committee of the AFC Asian Cup Qatar 2023 is to allocate proceeds from ticket sales to support the Palestinian children who are facing critical issues regarding various forms of resource management. Hosting the AFC Asian Cup Qatar 2023 will be followed by a 50% expansion in scale. From a 50% expansion to a completely new model, Qatar will become the first country to host the Asian Cup in its full capacity, with 21 matches taking place across stadiums in Doha, from Jan 21 to Feb 10, 2023.

**Palliative care unit:**

A palliative care unit for premature babies, evacuating from Gaza City to Al-Shifa Hospital in the northern Gaza Strip, is under the risk of losing their lives due to lack of basic care.

At the hospital in the northern Gaza Strip, hundreds of patients, medical staff and residents were killed at another Gaza hospital encircling by Israeli forces.

Al-Shifa originally raised an international alarm this month about 1675 patients being at risk from a lack of infection control, clean water and medicines in the neo-natal ward.

The newborns had been in north Gaza’s Al-Shifa hospital, where several others died after their incubators were knocked over amid a collapse of medical services during Israel’s military assault on Gaza City.

Israel’s forces destroyed the hospital last week, leaving patients and civilians dead and displaced people left at Al-Shifa in the week, with doctors saying they were operated by troops.

**Extension of occupation:**

The Israeli entity’s continued fierce war against the Palestinian people living under occupation, and its attempt to undermine the Palestinian statehood, is a clear violation of the Fourth Geneva Convention.

**Martyrdom and injury:**

The martyrs and injured children, with 29,000 injured, 12,200 Palestinians, including 3,250 women and 5,000 children, with 26,000 injured.

**Israel’s six-week-long siege:**

**New leadership appointments at HMC**

Dr Hani Mohamed Al-Attiya, CEO of Public Health and Medical Research (HMC) managing director has outlined a set of new leadership appointments for the upcoming strategic planning period, effective from November 14. This new appointment is to Dr. Yousef Khalid Al-Malhimi, deputy chief executive officer for clinical affairs and Dr. Fadhel AlBuHamed, chief of business services; Dr. Mohamed AlNaas, acting deputy chief executive officer for medical services and chairman of medical; Dr. Shehab AlAbdullah, acting chief executive officer of Community Diabetic Diseases Centre; Dr. Khalid Mohamed Al-Jabali, chief executive officer and medical director of Ambulatory Care Centres; Nasser Suad AlAbd AlMalhum, chief of centre for patient experiences; Dr. Abalah Mohamed AlNaas, chairman of emergency medicine department and Dr. Khalid AlAmari, chief of laboratories.

Dr Nanda Abdulrahman AlMansoori, CEO of Al-Sayah Medical Corporation (AMC), said: "According to the statistics of the Somali Disability Network, there are more than 6,000 PWDs in Puntland alone. We are determined to continue and develop such projects, to reach out to those in need, delivering high-quality care to patients, a statement added.

**Ooredoo showcases smart health solutions**

Ooredoo displayed an array of advanced technology solutions tailored specifically for the healthcare sector at the recent 17th International Primary Health Care Conference in Doha. The event, organised by the Ministry of Public Health (MOPH), gathered over 560 leaders and experts from around the world to discuss and share best practices as a region in the MOPH and provide to the healthcare sector in Qatar, offering quality fixed, mobile connectivity and ICT services, including cloud and data center solutions, cybersecurity and unified communications.

**QORCS, Awqaf open PWD health centre in Somalia**

The representation office of Qatar Red Crescent Society (QRCS) in Somalia has recently completed a project to furnish and operate a health centre for persons with disabilities (PWDs) in Garowe, Puntland.

The opening ceremony was attended by Dr Mohamed Salih Ibrahim, Director General of the Ministry of Health and Dr. Haidar Abdulla, chief of business services of HMC. The opening ceremony was attended by Dr Mohamed Salah Ibrahim, director of Relief and International Development Division (WRC) at Qatar Red Crescent Society (QRCS), Ahmed Elmi Osman, Vice-President of Qatar Red Crescent Society, and Ibrahim, director of Relief and International Development Division (WRC) at Qatar Red Crescent Society (QRCS).

According to statistics of the Somali Disability Network, there are more than 6,000 PWDs in Puntland alone. We are determined to continue and develop such projects, to reach out to those in need, delivering high-quality care to patients, a statement added.

**CRA attends World Radiocommunication Conference 2023 (WRC-23)**

The Communications Regulatory Authority (CRA) is participating in the “International Telecommunications regulation Conference 2023 (WRC-23)” hosted by the Gulf News from Doha. December 15.

The CRA leadership is led by Engineer Ahmed Abdulrahman Al-Malhum, president of CRA, accompanied by representatives from CRA and group of specialists in the radio communications field representing government and private entities.

The conference will also delve into the use of satellite technologies for broadband services, terrestrial and satellite technologies for telecommunications, and terrestrial and satellite technologies for broadcasting, and the use of technology for new applications, especially in remote areas.

CRA’s participation in this conference presented its criteria and objectives to the participants and the world, especially in remote areas.

CRA also represents the criteria for stimulating the development of satellite technologies, telecommunications, and the use of satellite technologies for broadcasting, and the use of technology for new applications, especially in remote areas.

CRA shows particular interest in some agenda items regarding the identification of frequency bands for International Space Stations (ISS) and satellite communications in Earth and Space with respect to the World Radiocommunication Conference (WRC-2023). CRA also has a session on the use of space research for climate monitoring, and satellite technologies for broadband services, terrestrial and satellite technologies for telecommunications, and terrestrial and satellite technologies for broadcasting.

CRA also represents the criteria for stimulating the development of satellite technologies, telecommunications, and the use of satellite technologies for broadcasting, and the use of technology for new applications, especially in remote areas.
A meeting of the 36th session of the Council of Arab Transport Ministers was opened by HE the Transport Minister, in his opening remarks, stressed the importance of supporting common Arab action to further develop the transportation industry to achieve sustainable development and present world-class performance.

He pointed out the efforts of the ministers and relevant entities in all Arab countries to develop the sector and efforts to direct traffic and safer road transport in conjunction with the International Road Transport Union.

Qatar Charity and OCHA to support education in Yemen

Qatar Charity (QC) has signed an agreement with the United Nations Office for the Co-ordination of Humanitarian Affairs (OCHA) in Yemen to implement a project to improve access to education services and reduce school dropout rates in 18 governorates.

The project, expected to benefit thousands of students and teachers, aims to repair schools that were damaged due to the conflict and provide all necessary facilities in addition to providing school supplies to students and financial incentives for teachers. QC also seeks to provide long-term educational opportunities for approximately 1,500 students in the region. These students will also be provided with access to adult learning opportunities.

Roof repairs, heating and plumbing will be undertaken as part of the programme, while additional supplies and educational resources will be distributed. Similarly, 5,000 students will receive school bags to approximately 1,500 students in the Taiz district and more than 400 in the Grenada region.

QC is currently implementing a programme to support the education of orphan students in 22 governorates; a programme to support the education of orphan students in 22 governorates; and a programme to provide school supplies and basic educational requirements according to international standards to 15,000 students.

QC has implemented several projects in Yemen governorates, including Taiz, Hodeidah, and Bab. QC has established educational support units in 18 Yemeni governorates, where it paid rent for school buildings and distributed 15,000 school bags to approximately 1,500 students and distributed school bags to approximately 1,500 students in 18 governorates.

Additionally, QC has implemented a programme to support the education of orphan students in 22 governorates, and distributed school bags to approximately 1,500 students.

The numbers behind QC’s achievements in the 22nd edition of the tournament are staggering. For instance, we have increased the number of vehicles, trailers, and specialised vehicles, all within 45 minutes of any location. More than 250 dedicated truck drivers covered a total distance of more than 248,000 hours, assisted by 120 warehousing operations staff and 53 logistics system-designed drivers who managed the operations.

The FIFA World Cup Qatar 2022 was played from November 20 to December 18, 2022. A total of 32 teams competed across 64 matches in the 22nd edition of the tournament.
Israeli ships ‘legitimate target’, Houthis warn after seizure

In a tense escalation, Israel's ships are perceived as legitimate targets by the Houthi rebels, who have seized a cargo vessel in the southern Red Sea.

The Houthi group, a military faction that has been fighting against the Saudi-led coalition in Yemen, have announced that they have seized the Israeli ship, called the Galaxy, which was sailing in international waters.

The Israeli navy confirmed that the vessel had been seized and that the crew members were safe. However, the details of the incident are still under investigation.

The Houthi statement said that the Israeli navy had violated international waters and used its vessels for military purposes. The group has a history of seizing Israeli ships and demanding compensation.

The latest incident comes amid ongoing tensions between Israel and the Houthi rebels, who have been fighting against the Saudi-led coalition in Yemen. The conflict has drawn international attention and has resulted in numerous violations of international law.

The Houthi group has repeatedly called for the international community to demand the release of ships seized by Israel and has called for the end of the Israeli occupation of Palestinian territories.

The Israeli navy, in turn, has been quick to respond to the Houthi threats, stating that it would not tolerate such violations of its territorial waters.

The latest incident has raised concerns about the stability of the region and the prospects for a diplomatic solution to the conflict.

UN protetorate in Gaza is not a solution: Guterres

联合国难民署（UNHCR）负责人在一份声明中表示，加沙地带的庇护状态并不是一个解决方案。

“我们不能让无辜的加沙人民继续生活在无法自给自足的环境中。”

Guterres强调，加沙地带的庇护状态是一个临时性解决方案，无法解决长期的人道主义问题。

“我们必须采取更加持久的措施，以确保加沙地带的人民能够获得基本的医疗、教育和尊严的权利。”

Guterres呼吁国际社会加大对加沙地带的支持，包括向国际难民署提供更多的资金，以帮助加沙地带的难民。

“我们需要采取更加持久的措施，以确保加沙地带的人民能够获得基本的医疗、教育和尊严的权利。”

In Mexico, gender balance pushes political parties in unfamiliar bind

When Mexico’s presidential candidate won the winner’s prize of a Mexico City mayoral candidate, the victory was clear—but the path to victory quickly became murky. Questions have arisen about whether female political candidates are winning in Mexico’s capital, leading to a search for solutions that can help women win political seats.

In recent years, Mexico has taken steps to address gender inequality in politics. In 2003, the Mexican Constitution was amended to require 30% female representation in political parties. However, these efforts have not always been successful, and it remains to be seen whether female candidates will be able to make significant gains in politics.

In Mexico City, the situation is particularly complex. Although women have made some progress in recent years, they still face significant barriers to political success. One of the challenges is the relatively low number of women running for political office. According to data from the National Electoral Institute (INE), only 11% of candidates in the 2018 elections were women, compared to 21% in 2019.

Another challenge is the perception that women are not as strong candidates as men. According to political analysts, this perception may be based on a lack of confidence in women’s ability to lead and to make difficult decisions.

To address these challenges, political parties are implementing strategies to promote gender equality. Some parties are offering training programs for women candidates, while others are ensuring that women are included in decision-making positions. Additionally, some parties are using social media to increase women’s visibility and to provide them with a platform to express their ideas.

Despite these efforts, it remains to be seen whether women will be able to make significant gains in politics in Mexico City. However, the situation is not without hope. With the right strategies and support, women can certainly make progress in politics, and it is up to political parties to ensure that they have the resources and support they need to succeed.

argentina on edge with Milei election

Argentina’s presidential election on Sunday comes as Milei, a political newcomer, is poised to become the country’s next president. Milei’s populist and anti-establishment message has resonated with voters, particularly those who feel left behind by the country’s economic crisis.

If Milei wins, he could upend the political landscape in Argentina, potentially putting an end to the country’s long history of military rule and economic instability. However, the election also comes amid ongoing protests and social unrest, as well as concerns about the country’s economic future.

Milei’s success could have far-reaching implications for the country’s politics and economy. A Milei victory could lead to changes in the government’s economic policies, which have been criticized for their failure to address the country’s growing inequality and poverty.

On the other hand, Milei’s campaign has also raised concerns about the potential for political violence and instability. His populist rhetoric has been accused of inciting violence, and there are concerns about the potential for continued social unrest and political polarization.

Overall, the election in Argentina is a crucial moment for the country’s future. Whatever the outcome, it is clear that Argentina will continue to face significant challenges in the years ahead.
Over 200 mobsters sentenced in historic Italian mafia trial

An Italian court yesterday convicted more than 200 mobsters and their white collar helpers, as the culmination of a historic, nearly three-year trial against Calabria's notorious ‘Ndrangheta mafia.

For over a year and a half, the sprawling ‘Ndrangheta network, which stretches from Calabria to Europe and even to the US, has been in the dock for its role in a vast international crime syndicate.

CALABRIA, Italy (Reuters) - Over 200 mobsters were sentenced to a total of 3,600 years for mobster activities in a landmark trial against the Calabrian ‘Ndrangheta. The trial, one of the largest in Italian history, concluded a nearly three-year investigation into the criminal activities of one of the most powerful mafia families in Italy.

Each year, the president pardons one US President Joe Biden takes part in the annual Thanksgiving Turkey Pardon on the South Lawn of the White House in Washington, DC yesterday. This year, the president pardoned two turkeys, and he took a light-hearted approach.

The White House has been dismissive of reports suggesting that President-elect Milei and his government are not focused on the task at hand.

The US Secretary of Defense Austin announced that Ukraine is in new military need as he arrived in Kyiv on Saturday, pledging to support its efforts to assert greater control over its borders with Russia.

The ‘Beauties of Czechia’ exhibition has opened at Katara – the Cultural Village, unveiling 37 photographs by renowned Czech artist Lebor Svatik that shine a spotlight on nature’s grandeur and various landmarks of the Czech Republic.

Svatik, who was born on March 6, 1967, in Cesky Krumlov – one of the Czech Republic’s most beautiful historical cities – developed his talent from a young age, driven by a passion for capturing images that showcase the beauty of nature, architecture, and the transient moments of life.

Svatik’s photographs are on display at Katara’s Building 47 Hall 1.

Korean pavilion showcases modern agricultural technologies

S

The pavilion highlights the country’s cutting-edge innovations, and its vision for a sustainable future through smart agriculture. It also showcases Korean agricultural technology from various companies, aiming to further their entry into the Middle East markets.

The pavilion’s main focus is on bringing together experts and leading companies in the agricultural sector, with a particular emphasis on aerial photography, drones, artificial intelligence, and remote sensing technology.

The pavilion opens on November 22, with a grand opening ceremony held from 2pm onwards. The event will feature speeches, presentations, and a demonstration of drones and AI technologies.

The pavilion will run until November 25 at the Qatar International Art Festival.
